

National Water Safety Management Programme

The national Water Safety Management Programme is a suite of interlinked training awards, specifically designed to assist those organisations with employees who work in, or near water to meet their civil and statutory safety management obligations.

The awards in this programme bridge the gap between no qualification and full lifeguard. It is not an award that will replace the lifeguard award but is an excellent way in which competency in and around water may be demonstrated.

This programme is progressive so everyone starts with the foundation Basic Water Safety Awareness award (a self-study unit followed by a half day guided Learning Unit) and may move into a range of Environment Specific awards (including River, Still Water and Beach) leading, where required, to In Water Rescue Award.

Overview

Level 1: Basic Water Safety Awareness Module

For those working or supervising near water who do not have a definite intention to get into the water, for example beach games.

Level 2: Environment Specific Modules (River, Still Water and Beach)

For those who have a greater likelihood of getting closer to or in the water but with definite intention to stay within standing depth, for example rock pooling.

Level 3: In Water Rescue

For those who are required to supervise people who are swimming out of their depth (NB Level 3 is a separate course)

Trainer: Andy Barclay

Venue: Porthpean OEC, TR26 6AZ

Dates: 28 March 2017

Time: 9.30am - 4.00pm

Cost: £120 per person

Book online and use course code: CLO34
