

Source to Sea

River Fowey

An exciting cross-curricular project involving two days exploring the beautiful River Fowey.

Day 1: Journey to the source of the river on Bodmin Moor.

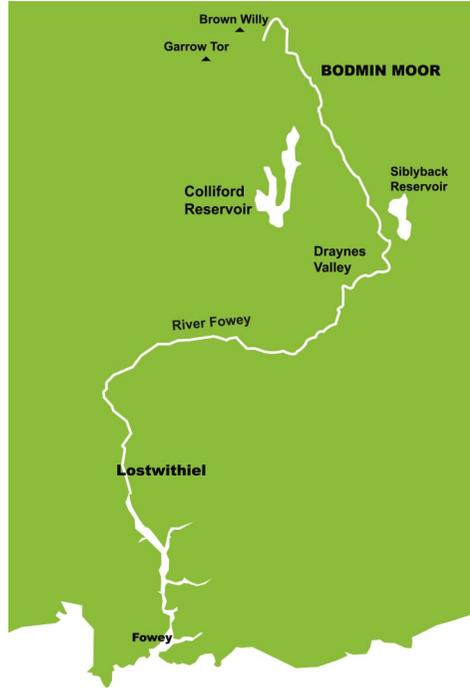

Day 2: Canoe the Tidal Estuary from Lostwithiel to the Sea

Insight

Building up our Map Skills, we spend **Day 1** criss-crossing the River Fowey, on foot, taking in the environment, habitat and landscape that is both seen and unseen, to 'discover' the Moorland Source.

On **Day 2**, We get up close and personal as we board Rafted Canoes and paddle downstream from ancient Lostwithiel to the coastal town of Fowey, seeing for ourselves how the landscape and historical use of land has changed, as well as examining how the river changes from fresh water to a tidal estuary.

Cost

£975 per group (October—end April)
£1700 per group (May—September)
+ additional cost of minibus/coach hire

Maximum group size of 30.

Suitable for year 4 and upwards

City to Sea

River Fal

A water based project involving a days exploration of parts of the beautiful River Fal and the Truro River

Insight

Tide dependent, we embark-in our rafted canoes— upon the first stage of our trip from Boscawen Park following the Truro River. Here we pass sites of Naval Battles and ancient literary Ferry Passages before joining the River Fal.

Here the river flows through its oak bounded valley and places of Espionage, Free Trading and Movies, until we reach our final destination of Loe Beach.

Watertight barrels are provided for your lunch and drinks, which can be enjoyed in the vicinity of two Ship Wrecks.
