

Dates and Prices 2018-19

Source to Sea—Fowey

2 Day Trip, on the Moor and the River.

Cost

£975 per group (September—End of April)

£1700 per group (May—August)

Maximum group size of 30

+ additional cost of minibus/coach hire

With this two day trip, our river day is tidal dependent for the date, but we will endeavour to fit in with you for the moorland day.

City to Sea—Fal

1 Day Trip, on the River Fal

Cost

£500 per group (September—End of April)

£850 per group (May—August)

Maximum group size of 30

+ additional cost of minibus/coach hire

Lower Tamar Paddle

1 Day Trip on the River Tamar

Cost

£500 per group (September—End of April)

£850 per group (May—August)

Maximum group size of 30

+ additional cost of minibus/coach hire

Where indicated by (R) the river section will be paddled from the sea up river due to tide times.

Source to Sea

River Fowey

An exciting cross-curricular project involving two days exploring the beautiful River Fowey.

Day 1: Journey to the source of the river on Bodmin Moor.

Day 2: Canoe the Tidal Estuary from Lostwithiel to the Sea

Insight

Building up our Map Skills, we spend **Day 1** criss-crossing the River Fowey, on foot, taking in the environment, habitat and landscape that is both seen and unseen, to 'discover' the Moorland Source.

On **Day 2**, We get up close and personal as we board Rafted Canoes and paddle downstream from ancient Lostwithiel to the coastal town of Fowey, seeing for ourselves how the landscape and historical use of land has changed, as well as examining how the river changes from fresh water to a tidal estuary.

City to Sea

River Fal

A water based project involving a days exploration of parts of the beautiful River Fal and the Truro River

Insight

Tide dependent, we embark-in our rafted canoes– upon the first stage of our trip from Boscawen Park following the Truro River. Here we pass sites of Naval Battles and ancient literary Ferry Passages before joining the River Fal.

Here the river flows through its oak bounded valley and places of Espionage, Free Trading and Movies, until we reach our final destination of Loe Beach.

Watertight barrels are provided for your lunch and drinks, which can be enjoyed in the vicinity of two Ship Wrecks.

For dates, prices and how to book please see back page

Lower Tamar

River Tamar

A water based project involving a days exploration of parts of the beautiful River Tamar, between Calstock and Saltash

Insight

Tide dependent, we embark-in our rafted canoes– upon the first stage of our trip from Calstock following the River Tamar. Here we pass under the impressive rail bridge, and paddle past Cotehele, and on towards one of the smallest chapels in Cornwall.

Down past expansive reed beds and meandering features, we flow past small communities before arriving at Saltash's distinctive bridges.

Watertight barrels are provided for your lunch and drinks, which can be enjoyed in the vicinity of Pentillie Estate.
